Friday 14th February 2020

Dear parents,

Marvellous Middle- PIZZA MAKING

Our whole school topic this term is 'ALIVE'. As part of their science work the children will be exploring 'How I can stay healthy?' They will understand the importance of exercise, healthy eating and hygiene. They will learn that nutrition comes from the food we eat, recognise the impact of diet and exercise on our bodies. Every child in the school will design and make their own pizza after the half term holidays. The children have already started designing the 9" pizza box, the children will take their uncooked pizza home in this box. The boxes we are using are both compostable and recyclable; the pizza will sit on greaseproof paper to stop food contaminating the box (for recycling).

With the help of Tanya, our school cook, **we will provide** the children with the pizza base mix (for the children to just add water), the pizza topping sauce and the grated cheese for the topping. The children will have the opportunity to design their own toppings for their pizza. We would ask parents to help their child collect the extra ingredients for their pizza. Your child will need to bring the extra ingredients in to school on their pizza making day and their pizza will come home the same day.

The pizza base mix, sauce and cheese used are the same as those used for the pizzas at lunchtime. If your child has a dairy or gluten intolerance then they will be provide with an alternative dairy free cheese or gluten free pizza base mix. If you have any concerns regarding the ingredients provided by school please do not hesitate to contact me. Tanya has very kindly offered to demonstrate to the whole school how to make their pizza. This will be on the morning of Monday 24th February.

Thank you for your continued support and enjoy your child's pizza!

Yours sincerely

Antony Gallagher
